Sprint 3 Report

Product: Remember Me

Team Name: RememberMe

Revision: 05/04/2021

Actions to Stop Doing:

- We need to stop pulling from our Github with all the yarn.lock and package-lock.json, because that messed up everyone's environments.
- Stop going to meetings with issues, find a way to resolve problems beforehand.
-

Actions to Start Doing:

- Start having something done before each meeting to update the group with progress
- Start taking on more roles since we're coming to a close with Sprint 4 (Sacrifice weekends)

Actions to Keep Doing:

- Communicating with team members on progress and problems so we can help each other pick up on our parts.
- Spending time researching and working on code.
- Keep holding work meetings to encourage members to continue making progress.
- Keep explaining what your code is doing so that other members can understand how to implement their code.
- Keep documenting installed packages and steps for

Work Completed/Not Completed:

Completed:

- Access camera roll and uploading photos
- Documentation on backend code
- Finished implementing sign in function and did some minor changes to frontend
- Created a drawer navigation tab to access other pages more conveniently
- Connected pages from login to contacts
- Facial recognition vector comparison
- Vector usage optimization
- Modularization of components (ready to implement)

<u>Not Completed:</u>

- Saving notes on Firebase
- Categorizing the notes and people
- Return image/ recognized string back to RN fetch blob

Work Completion Rate:

- User Stories Completed:
    - (2 / 2) user stories completed ; 12 points obtained out of 12 points
    - Both Sprint 4 stories complete; awaiting merge with other components
- Ideal Work Hours
    - Primary Focus:
        - Front End (Dillon and Sarah)
            - Ideal Time of day: 4-10PM
            - Total worked: 3 hrs (Dillon)
            - Total worked: 5-7 hrs (Sarah)
    - Secondary Focus:
        - Backend (Gav and Gareth)
            - Ideal Time of day: 5:30-11PM
            - Total worked: 5.5 hrs (Gareth)
            - Total worked: 6 hrs (Gavril)
        - Facial (Grant)
            - Ideal Time of Day: 6PM - 3AM
            - Total Worked: 10 hrs
- Days during prior sprint
    - Overall Time Elapsed: around 2 Weeks
    - Work Time Spent: Around 6 days
        - Note: Struggle to complete tasks on time, so we suggested designated 2 hour-work progress sessions to increase motivation and progress.
